🌐 <https://don-cosio-info.vercel.app/>

Results-driven full-stack web developer with 3+ years of hands-on experience and proficiency with Python, JavaScript, Typescript, and SQL dedicated to building and optimizing user-focused websites and applications. Judicious and creative when crafting websites, apps, and platforms to propel competitive advantage and revenue growth. Technically proficient and analytical problem solver with a calm and focused demeanor.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Consultant

Jul 2021 - Jan 2023

Cisco Systems, Remote

- Led a team of 3 senior/mid members to build a network automation application for clients across Asia Pacific Region.
- Completed a full-stack web app resulting in a reduction of 27,000 man-hours of manual work in the first four months of app usage.
- Designed, developed, deployed, and maintained 7+ projects as per the requirements of the client and project manager.

Software Developer

Jul 2020 - Jun 2021

Stationfive, Remote

- Translated 50+ wireframes into working prototypes to refine user interface behaviors.
- Concerted within an agile scrum team to develop 80+ application features such as a payment system, based on requirements and design specifications.
- Developed 100% RESTful API to control user functions using Express.JS with PostgreSQL as a persistence layer while utilizing React with Typescript on the frontend.

Department Manager (Telecommunications)

Feb 2016 - Oct 2019

MVP Asia Pacific Incorporated, Philippines

- Managed 26 teams of 150 people composed of electronics engineers and non-technical members.
- Creates business processes and implementation to drive the productivity of key teams in New Zealand, Australia, and the Philippines.
- Directly reports to the Chief Operating Officer to make data-driven decisions to drive the revenue stream of the company.
- Provided training, recruitment, design, QA, and customer service.
